

The DREAM Team

Molly Broderson is a retired educator with over 35 years teaching physical education, students with special needs, and finishing her career as an elementary school principal. Her love for anything outdoors started during bird walks with her family in the Great Swamp in NJ, continued through her teenage years canoeing and camping in Canada and continues with her outdoor experiences as a member of the Friends of the Dragon Run Board and the Youth Committee Outreach Chair.

Terry Skinner earned a BS in Biology and Animal Science and an MA in Elementary Education from Virginia Tech. She has taught in public school and homeschooled her 6 children K-12. She is a Middle Peninsula Master Naturalist, a member of the Youth and Community Outreach committee, and on the FODR paddle crew.

Carol Kauffman, FODR Vice President: Carol has been on the FODR board for four years. She is a retired teacher and has taught mathematics, life science, computer technology, and gifted and talented students in grades pre-K through 12. She is a FODR Co-Paddle Master, a Middle Peninsula Master Naturalist (MPMN), a former Curriculum Committee Chair for the MPMN Basic Training Course, a FODR paddle guide, and serves on the Youth and Community Outreach committee.

Bambi Thompson is a retired teacher and administrator who worked for Gloucester County Public Schools for 30 years. Her awareness and interest in the Dragon Run began years ago as she served on the board of the Friends of the Dragon Run and is now a paddle guide. She serves on the FODR Youth and Community Outreach committee with enthusiasm to share the magic of the Dragon with our youth.

Susan Walton is a retired life science teacher who taught in Gloucester County for 31 years. She continues to work as an environmental educator and looks forward to bringing positive outdoor experiences to more teachers and students as well as the general public. She is a member of Middle Peninsula Master Naturalists and serves on the FODR Youth and Community Outreach committee. She participates in numerous citizen science projects and enjoys photography.
